Office Inventory

Office inventory cost money. Spending too much on items you need for your office–inks and toners, pens, pencils, paper, laminating supplies, tape−is a waste of money that could be spent investing in your company's growth. Keeping your office inventory under control can not only loosen up your budget, but also ensure that you have all the supplies you need when you need them. You have to control your office computers, printers, scanners, etc. and view in which room these devices located and who is responsible to it. Our E-CRM can help you to do this.

Item 'Computer Dell' print label   ✕

Item QR code   Item image

SKU # 80300032
