demo@allincrm.com

ALL-IN-CRM encompasses all the essential tools needed to set up an online shop catering to both **B2C and B2B** customers. You won't require any extra systems like NetSuite, InFlowInventory, Rebz.io, ShopZio, QuickBooks, Monday, or any others.

Vendor orders -> Inventory -> Product details -> Click2Buy shop -> Orders -> Packing -> Invoices -> Shipping -> Reports

With your mobile device, you can easily access and explore the **B2C and B2B** Click2Buy shop demos. Just scan the code and start experiencing it.

1. Customer personal Click2Buy account

Scan QR code, enter the last 4 digits of demo customer phone # (2641) and start working

Notes:

Click2Buy is an integral component of the comprehensive ALL-IN-CRM Business Management Portal. Within Click2Buy, clients have the flexibility to create multiple shops, each with its own set of currencies, prices, and product categories. These shops can be easily customized to align with specific business requirements. Importantly, Click2Buy is fully integrated into the CRM system, enabling streamlined management of various aspects including products, prices, discounts, orders, inventory, and more.

ALL-IN-CRM is available for installation on your company's server, allowing your IT team to oversee its management. You won't have to deal with monthly fees per user for various systems. You'll have the flexibility to customize the CRM and Shop according to your business requirements. The only cost you need to cover is the license fee.

Our licensing fee ranges from \$5000 to \$15000. This amount equals your fee for the services you're currently utilizing over a span of 6 to 12 months.
